No gameplay. Boring as hell. The damn game keeps CLOSING OUT FOR ABSOLUTELY NO REASON!

The♥♥♥♥♥♥♥♥and♥♥♥♥♥♥♥♥are not that redeeming a quality. Sorry but it sucks. WTF JAPAN!?. Definitely the right price if you're looking for the nostalgia. I recommend you load up a sprite sheet of the original game and replace the kind of dry graphics of this remake.. This pack has Mr Foster, which means you have to buy it, even if you don't own Killing Floor, it's required by law that you own this DLC.

Other characters are decent, but Mr Foster is the greatest thing since sliced bread.. This game is very good, the controls you can always change them.

The music is very good brings back memories of back in the day on the Ps2.

It gets a bit repetitive but its nice overall.. It's not bad,visually it looks decent,but it's not my type of game. I played this mostly trading cards.. Played in the dark this game is scary. It's loud, you are truly alone, and you feel lost and out of control. When you finally realize that just looking at the beast is not going to save you all bets are off. My advice is not to run to the next marker because if the beast shows up and you are out of breath \u2013 you dead.

It needs a few tweaks. I would like to see randomly generated numbers for the markers. It would be nice if the markers could serve as a safe zone. Some kind of lantern or flashlight would be appreciated. You can see my playthrough with my suggestions as well.

<http://youtu.be/VjcdpQZEcsr>. Nice simple game, not dissimilar to any of the multitude of hidden object games available on mobile. Worth the price of admission at \$0.75 AUD certainly, kept me entertained for a couple of hours.

[The archery mini-game didn't really add much, but the game indicates that it's more of a side task than anything else. Otherwise content is gated behind recruitment of the assorted Merry Men to solve various "puzzles" with their abilities. These are doled out at a decent pace so I was never left with a puzzle for too long before I gained the ability to solve it.](#)

[The storyline itself is relatively inane, but the female protagonist was a nice touch.](#)

That looks very nice. You must buy this awesome Outfit!. the graphics style is alright, i wouldnt have said no to a sniper elite stylised game but

for those with shaky hands theres is a mostly unknown mechanic where you aim close to the target, half pull the trigger and the scope movement will slow and allow you to aim with better precision, i see this being a big thing in sniper games to come

when enemys have spotted you when the bullet is about 2-3 meters away, game time slows heavily into a bullet time effect allowing you to dodge them, 2 hits and you die i believe, sometimes the effect can be nonstop if several enemys are shooting at. The game itself is really entertaining. But some achievements are hard to get. I had to play the game 3 times to get all the achievements. Story is weak but not terrible. Overall it's good if you like hidden object games.. First of all, this is one of the best adventure games I have played lately and the most underrated so. I bought this game more on a whim, because my first impression was it was a hidden object game. Very bad advertising work, nothing really charmed me into buying other than the fact that i am a hardcore adventure gamer and one of the trailers looked promising.

The game turned out to be a lot better than expected, a very enjoyable experience. The strongest point of the game are the puzzles, logical and entertaining. The story is not bad either, fitted with a nice historical angle, althoughcould have been a little more developed. Still, very entertaining and a must buy for all adventure lovers.. Somewhat a boring game. Not worth the price.
